Vee	INSPECTION CHECKLIST							
Yes	No	If "No" for any item, explain in comments.						
		Sheep and goats inspected and found free of clinical signs of scrapie.						
		Sheep and goats inspected and inventoried and those over 12 months of age are officially identified.						
		Animal inventory reconciled with previous year's inventory and any discrepancies were resolved. Reviewed requirement and procedure for reporting of scrapie suspect animals and animals found dead, and submission						
		of samples.						
	Writte	en or computer records match the inventory made during the inspection and records track the following information:						
		Official and any secondary identification or marks. If "Yes," type of official ID:						
		Sex.						
<u> </u>		Species and breed (or cross), or if breed unknown type (sheep: meat, dairy, or fiber and face color; goats: meat, dairy, or fiber).						
		Date of birth or estimated month and year of birth. Flock of origin (name and address of previous owner) and date of entry for those not born in flock.						
	H	For registered animals, the registry and registration number.						
- H	П	Information on genotyping, if known.						
		Animal acquisitions: in addition to the items listed above, flock of origin ID number, status and status date in the SFCP at time of acquisition.						
		Acquisition. Animal deaths: official ID, date died/found dead, diagnosis/cause and documentation of results of scrapie testing completed.						
		Animals sold/removed: official ID, reason removed, date removed and name/address of buyer.						
	Animals sold as SFCP-enrolled animals: the buyer was provided with the required records.							
Flock	k owner		ector noted the following activ				in comments.):	
		Commingling of sheep/goats with sheep/goats of another flock or resided on the premises of another flock.						
_ <u>H</u> _		Purchase of ewes/does and/or rams/bucks from another flock.						
-		Use of semen and/or embryos, and/or sheep or goat milk or colostrum or products derived therefrom.						
		Failure to officially identify animals or to maintain accurate records, including a current inventory. Failure to provide records to purchasers of animals sold as enrolled animals.						
		Failure to report animals exhibiting clinical signs of scrapie or to submit samples from these animals and animals found dead at
